

# Group Meeting - 2 hours

Group 5

13.03.18

**Team attendance:** All team members

Finished with refactoring and reorganizing data structures. Started on the base version of the GameGUI. Still plotting in methods from the classdiagram, because we had to change som structures to get the game to work. Each team member has been given a task to be done with until next time. Will be practicing pair programming until next time.
