

## Group Meeting - 2 hours

Group 5

03.05.18

**Team attendance:** Malin, Rune, Olav, Keerthan, Ole, Simen og Henrik

Working on getting the readfile method in loadResources to work. We have some troubles on reading the file so it worked while it was packed as a jar. Some other bug fixes and changed some scaling so when you adjust the window the statpanel is removed, so you could play with only seeing the board and nothing else. Will continue to get the readfile method to work.
