Group Meeting - 2 hours

Group 5

10.04.18

Team attendance: Malin, Olav, Simen, Renate og Keerthan

Progress on SQL database, now we can connect to the database. We are working on connecting the database to the score class until next time. Fixed board generator, and added a button to switch between regular mode and random mode. Improved the AI, hint button is now enabled and shows the user best move. Cleaned up the code for better understanding.
