Group Meeting - 4 hours

Group 5

08.03.18

Team attendance: All team members

Now everybody is ready to code and have a general overview over coding structure that we are going to use. A deep walkthrough of the class diagram and took suggestions from each group member. There were no problems with assignments given since last time, so we continued working on project. Each member will be helping plotting in methods from the class diagram. Will be finished until next time.
